

# The Collections

---

2026

“Purveyors of the curious, the spectacular and sometimes the delightfully eccentric, House of Piccadilly is the chosen source of the discerning homeowner.”

## Our Story

House of Piccadilly was founded by Harry Pashby, a former plumbing engineer who knew the trade inside out. Whilst working on projects across the UK, he often came up against the same issues - products that were tricky to install, finishes that didn't last, and a lack of detail when buying online.

Frustrated by the gap between quality and practicality, Harry began developing his own pieces, alongside a close-knit team of trusted tradesmen who had faced the same challenges on-site. Together, they researched what really worked, what didn't, and what the trade genuinely needed.

## A Plumber's Vision, Perfected.

That idea became House of Piccadilly: a brand shaped by experience, focused on design-led bathroom products that are easy to fit, built to last, and thoughtfully made using high-quality European components.

Unlike many others, we don't sell online. Our products are available exclusively through showrooms - so customers can see the detail, materials, and finishes up close, just as they should be.

# Make it Bold

A bath should do more than fill a space, it should make a statement. With our bespoke bath recolouring service, you can turn a classic silhouette into a true centrepiece.

Choose from an exquisite palette inspired by the rich tones of Farrow & Ball and Little Greene, from soft neutrals to daring brights. Whether you're creating calm or making an impact, your bath can now reflect your personal style and the mood of your home.

Each piece is hand-finished to order and delivered in as little as two weeks, combining craftsmanship with complete individuality.

Because the perfect bathroom isn't just about beautiful design, it's about expressing yourself boldly, confidently and without compromise.

# It's All About The Detail

**Every curve, finish and fitting tells a story. At House of Piccadilly, we believe great design is about the details you don't always notice – the ones that make every bathroom feel considered, complete and beautifully balanced.**

Our brassware, radiators and accessories are perfectly matched across the range, so tones and textures flow seamlessly from one piece to the next. From brushed gold to gunmetal, each finish is crafted with precision and consistency, creating a harmony that ties the whole space together.

Even the smallest elements matter, the knurled patterns on handles and hooks,

the smoothness of the tap turn, the perfect alignment of a valve or bracket. Every detail is intentional, because that's what elevates a bathroom from ordinary to exceptional.

We think about comfort, too. Ergonomic bath shapes, flexible radiator sizes and adjustable frames mean our products don't just look beautiful, they fit beautifully, wherever they're installed.

It's this commitment to craft, proportion and practicality that defines every House of Piccadilly collection. Because real luxury lies in the details you'll enjoy every single day.

# Our Guarantees

**Every House of Piccadilly product is built to last, and we stand by that promise. Each piece is designed, engineered and tested to exacting standards before it leaves us, so you can choose with total confidence.**

Our guarantees reflect the care and craftsmanship behind every collection. They're simple, transparent and a testament to the quality that defines House of Piccadilly.

## Toilets and Accessories

-  **Ceramics**  
Hard-wearing, precision-made ceramics built for years of daily use.
-  **Frames and Cisterns**  
Strong, reliable support systems engineered for lasting performance.
-  **Toilet Accessories**  
Includes seats, hinges, push buttons and flush buttons.

## Taps and Showers

-  **Brassware**  
Durable brass fittings with long-lasting PVD finishes that resist wear and corrosion.
-  **Cartridges, Hoses and Labour**  
Reliable internal components designed for smooth, precise performance year after year. (Covered under the brassware guarantee).

## Heating and Accessories

-  **Radiators and Heated Towel Rails**  
Built for efficiency, reliability and lasting warmth.
-  **Heating Accessories (Valves, etc)**  
High-quality finishing touches that match and perform beautifully.

## Baths and Basins

-  **Freestanding Acrylic Baths**  
Manufactured from high-grade acrylics for strength, heat retention and easy maintenance.
-  **Freestanding Stone Baths and Countertop Basins**  
Expertly cast and finished for enduring elegance and everyday durability.

### Peace of Mind As Standard

Register your products on our website to activate extended guarantees and enjoy full after-sales support from our expert team.

# Technology That Makes a Difference

Behind every House of Piccadilly collection lies a commitment to making bathrooms not just beautiful, but better. We believe technology should enhance daily life – quietly, seamlessly and without compromise. From durable finishes to easy-clean surfaces, every innovation we develop is designed with one goal in mind: to make your bathroom easier to use, simpler to maintain and longer-lasting.

Here's how our latest advances help you get more from every detail.

## Anti-fingerprint Technology

There's nothing worse than a beautiful finish constantly covered in smudges. Our anti-fingerprint technology stops that from happening.

Applied as a fine protective layer over selected finishes, it prevents the marks and smears that appear when you touch taps, shower valves or flush buttons. The result is metalwork that stays cleaner for longer and keeps its just-polished look, even after everyday use.

This isn't a gimmick or a coating that dulls the shine. The surface still feels smooth and looks luxurious, but it naturally repels grease and moisture.

For families, it means less time cleaning and more time relaxing. For showrooms, it keeps displays looking pristine. And for anyone who appreciates craftsmanship, it's proof that practical design and elegance can go hand in hand.

You'll find this technology across many of our PVD finishes, including brushed gold and gunmetal, adding lasting protection where it matters most.

## PVD Finishes

A beautiful finish should stay beautiful. Traditional plating methods can chip or peel over time, especially in humid environments. Our PVD (Physical Vapour Deposition) process gives colour real staying power.

Here's how it works, in simple terms. Each piece of brassware is placed in a vacuum chamber, where fine particles of metal are bonded to the surface at a molecular level. Instead of being painted or coated, the colour becomes part of the metal itself.

The result? A finish that's up to 10 times more durable than standard plating. It resists scratches, fading and corrosion, keeping its depth and lustre year after year.

PVD also allows for richer, more complex tones, from warm brushed gold to deep gunmetal, without compromising strength. Every finish is applied with precision, ensuring consistency across our ranges so taps, showers and accessories match perfectly.

It's a blend of science and craftsmanship that protects your investment, giving you a finish designed to stand the test of time.

## CycloClean™

When we set out to design our first range of toilets, we wanted to rethink how a flush could perform. The result is CycloClean, our precision-engineered flushing system that delivers cleaner results, more quietly and with less water.

Instead of water simply dropping from the rim, CycloClean sends a controlled jet around the entire bowl in a continuous 360° motion. This swirling action covers every surface evenly, washing away residue while using water more efficiently.

The outlet is discreetly integrated into the design, so the look is as refined as the performance. The sound is quieter too – no loud rush or splash, just a smooth, consistent flow.

For customers, that means a toilet that stays cleaner for longer and uses less water to do it. For installers, it's simple to fit and built to last with fewer moving parts.

CycloClean shows how thoughtful engineering can improve both hygiene and experience, combining practicality with understated style.

## PureShield Glaze

Clean shouldn't mean constant scrubbing. Our PureShield Glaze is a specialist ceramic coating that helps keep toilets looking and feeling fresh with minimal effort.

During manufacturing, the glaze is fused to the ceramic at high temperature to create an ultra-smooth, glass-like surface. This makes it harder for dirt, limescale and bacteria to cling, meaning the bowl stays cleaner after every flush.

The glaze is also resistant to harsh cleaning chemicals, so it won't fade or discolour over time. Instead, it maintains a lasting sheen that keeps your bathroom looking its best.

Used together with our CycloClean system, PureShield Glaze takes hygiene to the next level. While CycloClean provides a complete bowl wash, the glaze prevents residue from taking hold. The two work in harmony to deliver effortless cleanliness and a consistently polished finish.

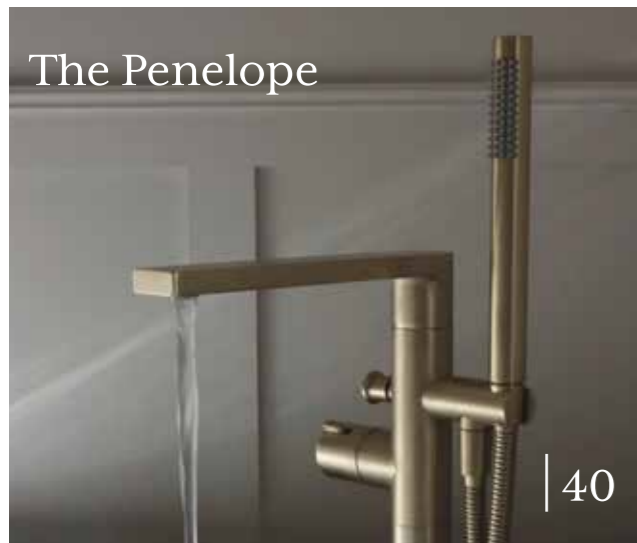

It's one of those small innovations that  
makes a big difference every day.

Cherishers of quirky beauty: welcome to House of Piccadilly.

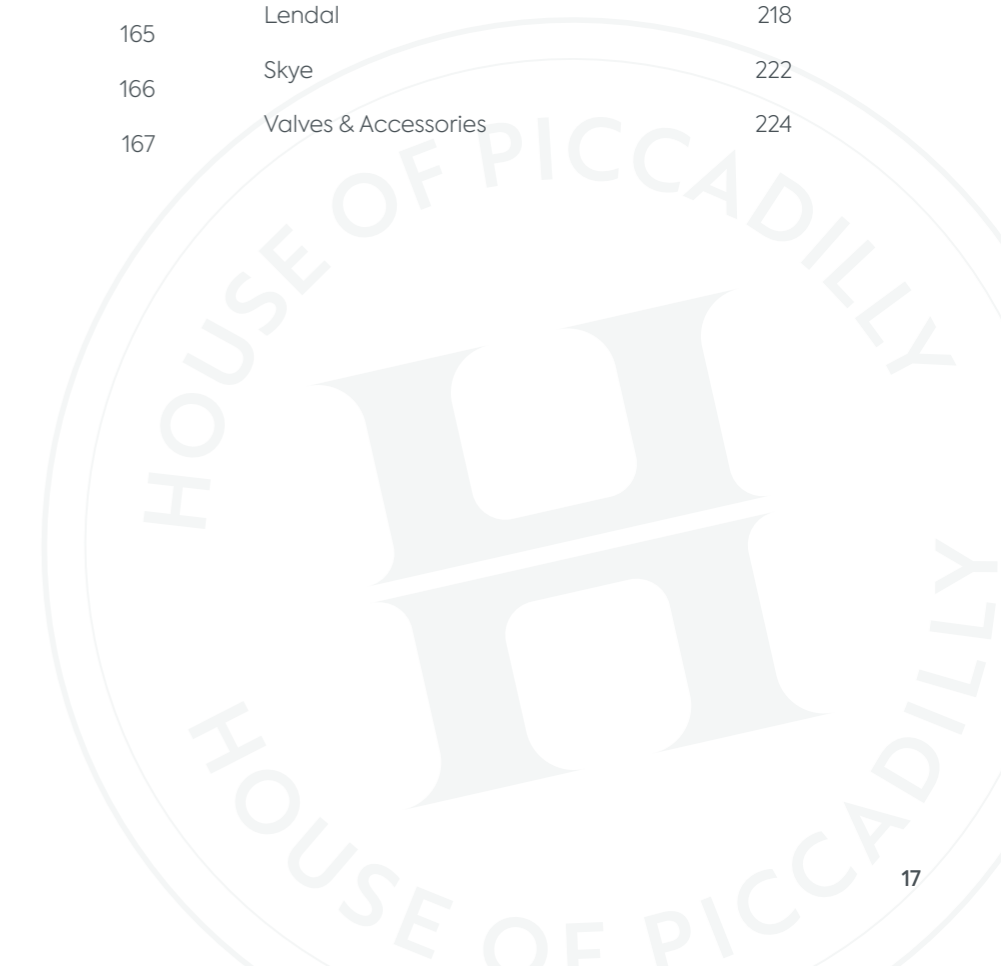

Come on in – even the water feels luxurious.

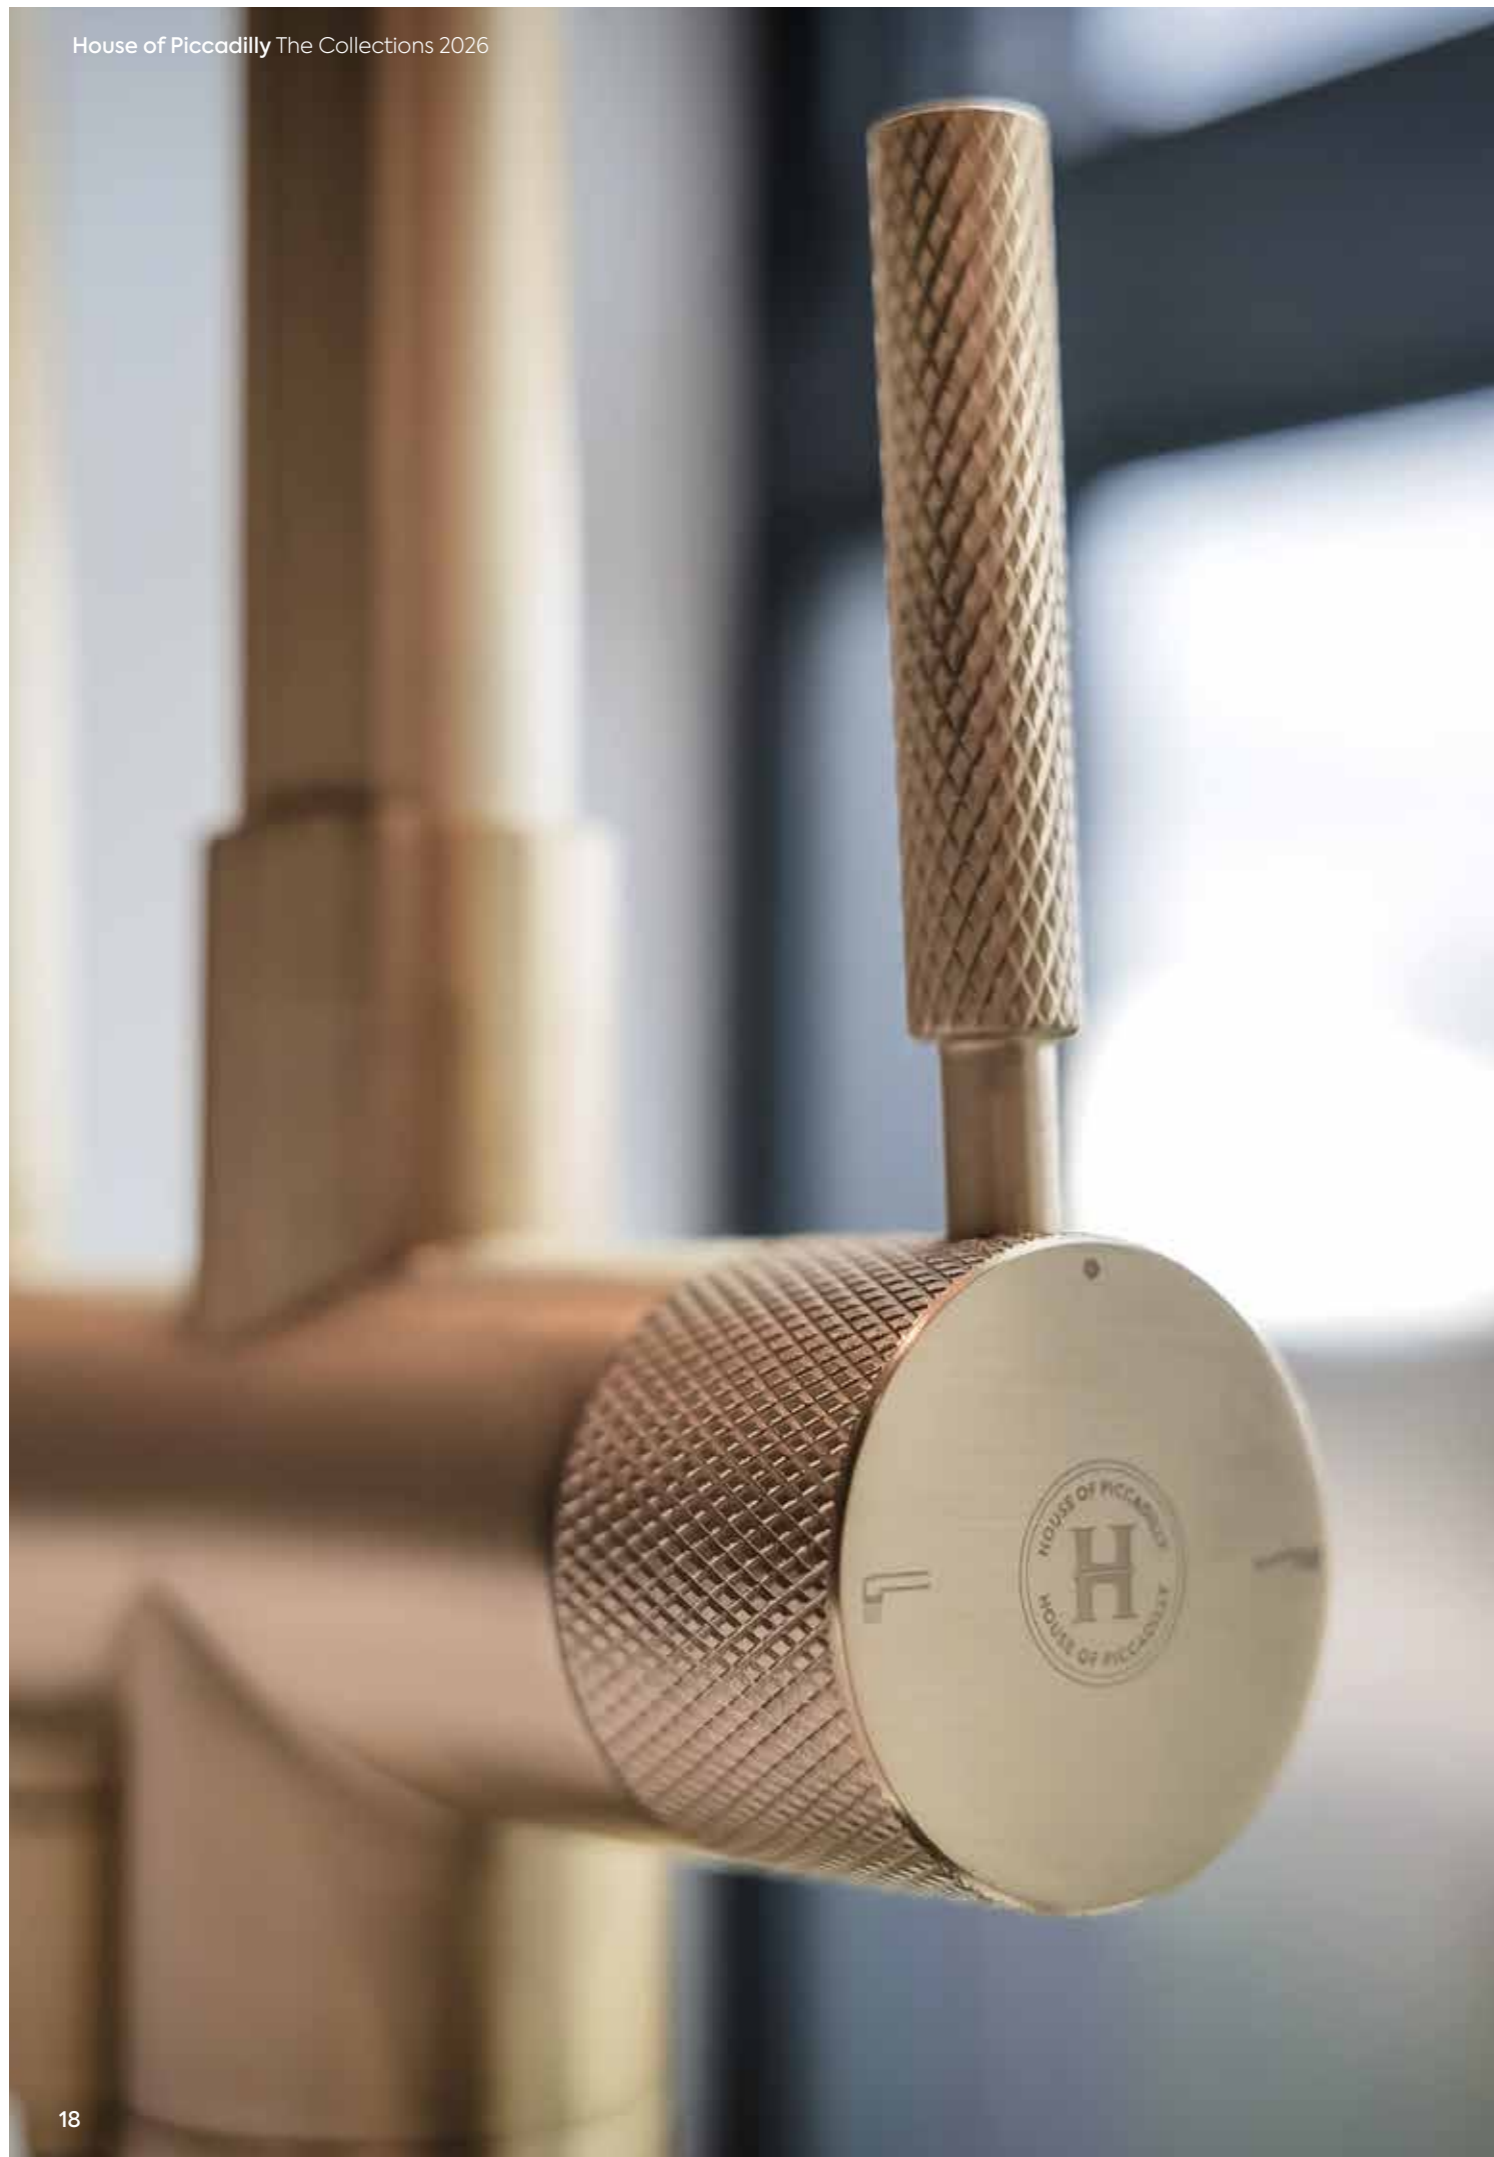

Jewel-like exquisite finishing touches and design detail sprinkle magic over your bathroom. You'll discover showers to transport you. Towel rails with attitude. Taps and mixers that could have stepped off the catwalk. And more.

We call it brassware. We also call it gorgeous.

## Taps & Showers Collection

You could just hop into the bath. You could merely jump in the shower.  
You could wash and go. If that's your vibe, wonderful. You'll get clean.

Or, you could transform bathing into the deepest pleasure with House of Piccadilly.  
From the spellbinding depths of our design room emerge taps, mixers, showers and accessories  
that leave yesterday's bathrooms looking on in gnawing envy.

House of Piccadilly is for the curious, the rebellious, the connoisseurs. It's for those who are  
determined to savour every single moment, delighting in the knowledge that a shower is  
a waterfall of inspiration and a soak is a life-affirming ritual.

Ready to open the floodgates to a new way of bathing?  
Turn the pages and let the luxury overflow.

# The Vienna

There's an echo of the past around Vienna's contemporary lines. An elegant contradiction, these are designs for those who refuse to be defined.

# The Penelope

Slender elegance hides a powerful heart.  
Long, lean and unobtrusively beautiful, the  
Penelope is brassware turned up to exquisite.

# Showering

Fans of the ordinary, look away now. When you step into a House of Piccadilly shower, you are setting foot into a style fantasy that is a million miles away from the daily routine.

Whether you're an early bird or a night owl; turn the temperature up minute-by-minute or end on an icy blast, accept only the extraordinary and expect every day to be exceptional.

And, when you turn off the water and return to reality, you never really leave – it's just a pause until the next time.

# Accessories

---

Bathroom adornments are there to be adored. Yes, they serve a purpose, but that doesn't mean you cannot place some importance on being impeccably stylish too.

Carefully crafted and considerately curated to blend seamlessly across the bath, basin and shower collections.

This is where function and aspiration come together. These are the finishing touches that bring a room to life. This is the House of Piccadilly Accessories collection.

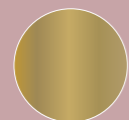

The Alby

# The Alby

With curves for days and perfectly weighted, these are hooks and rails to carry only the very finest burdens.

# Toilet Collection

At House of Piccadilly, we believe every detail deserves devotion  
– even the ones most people overlook.

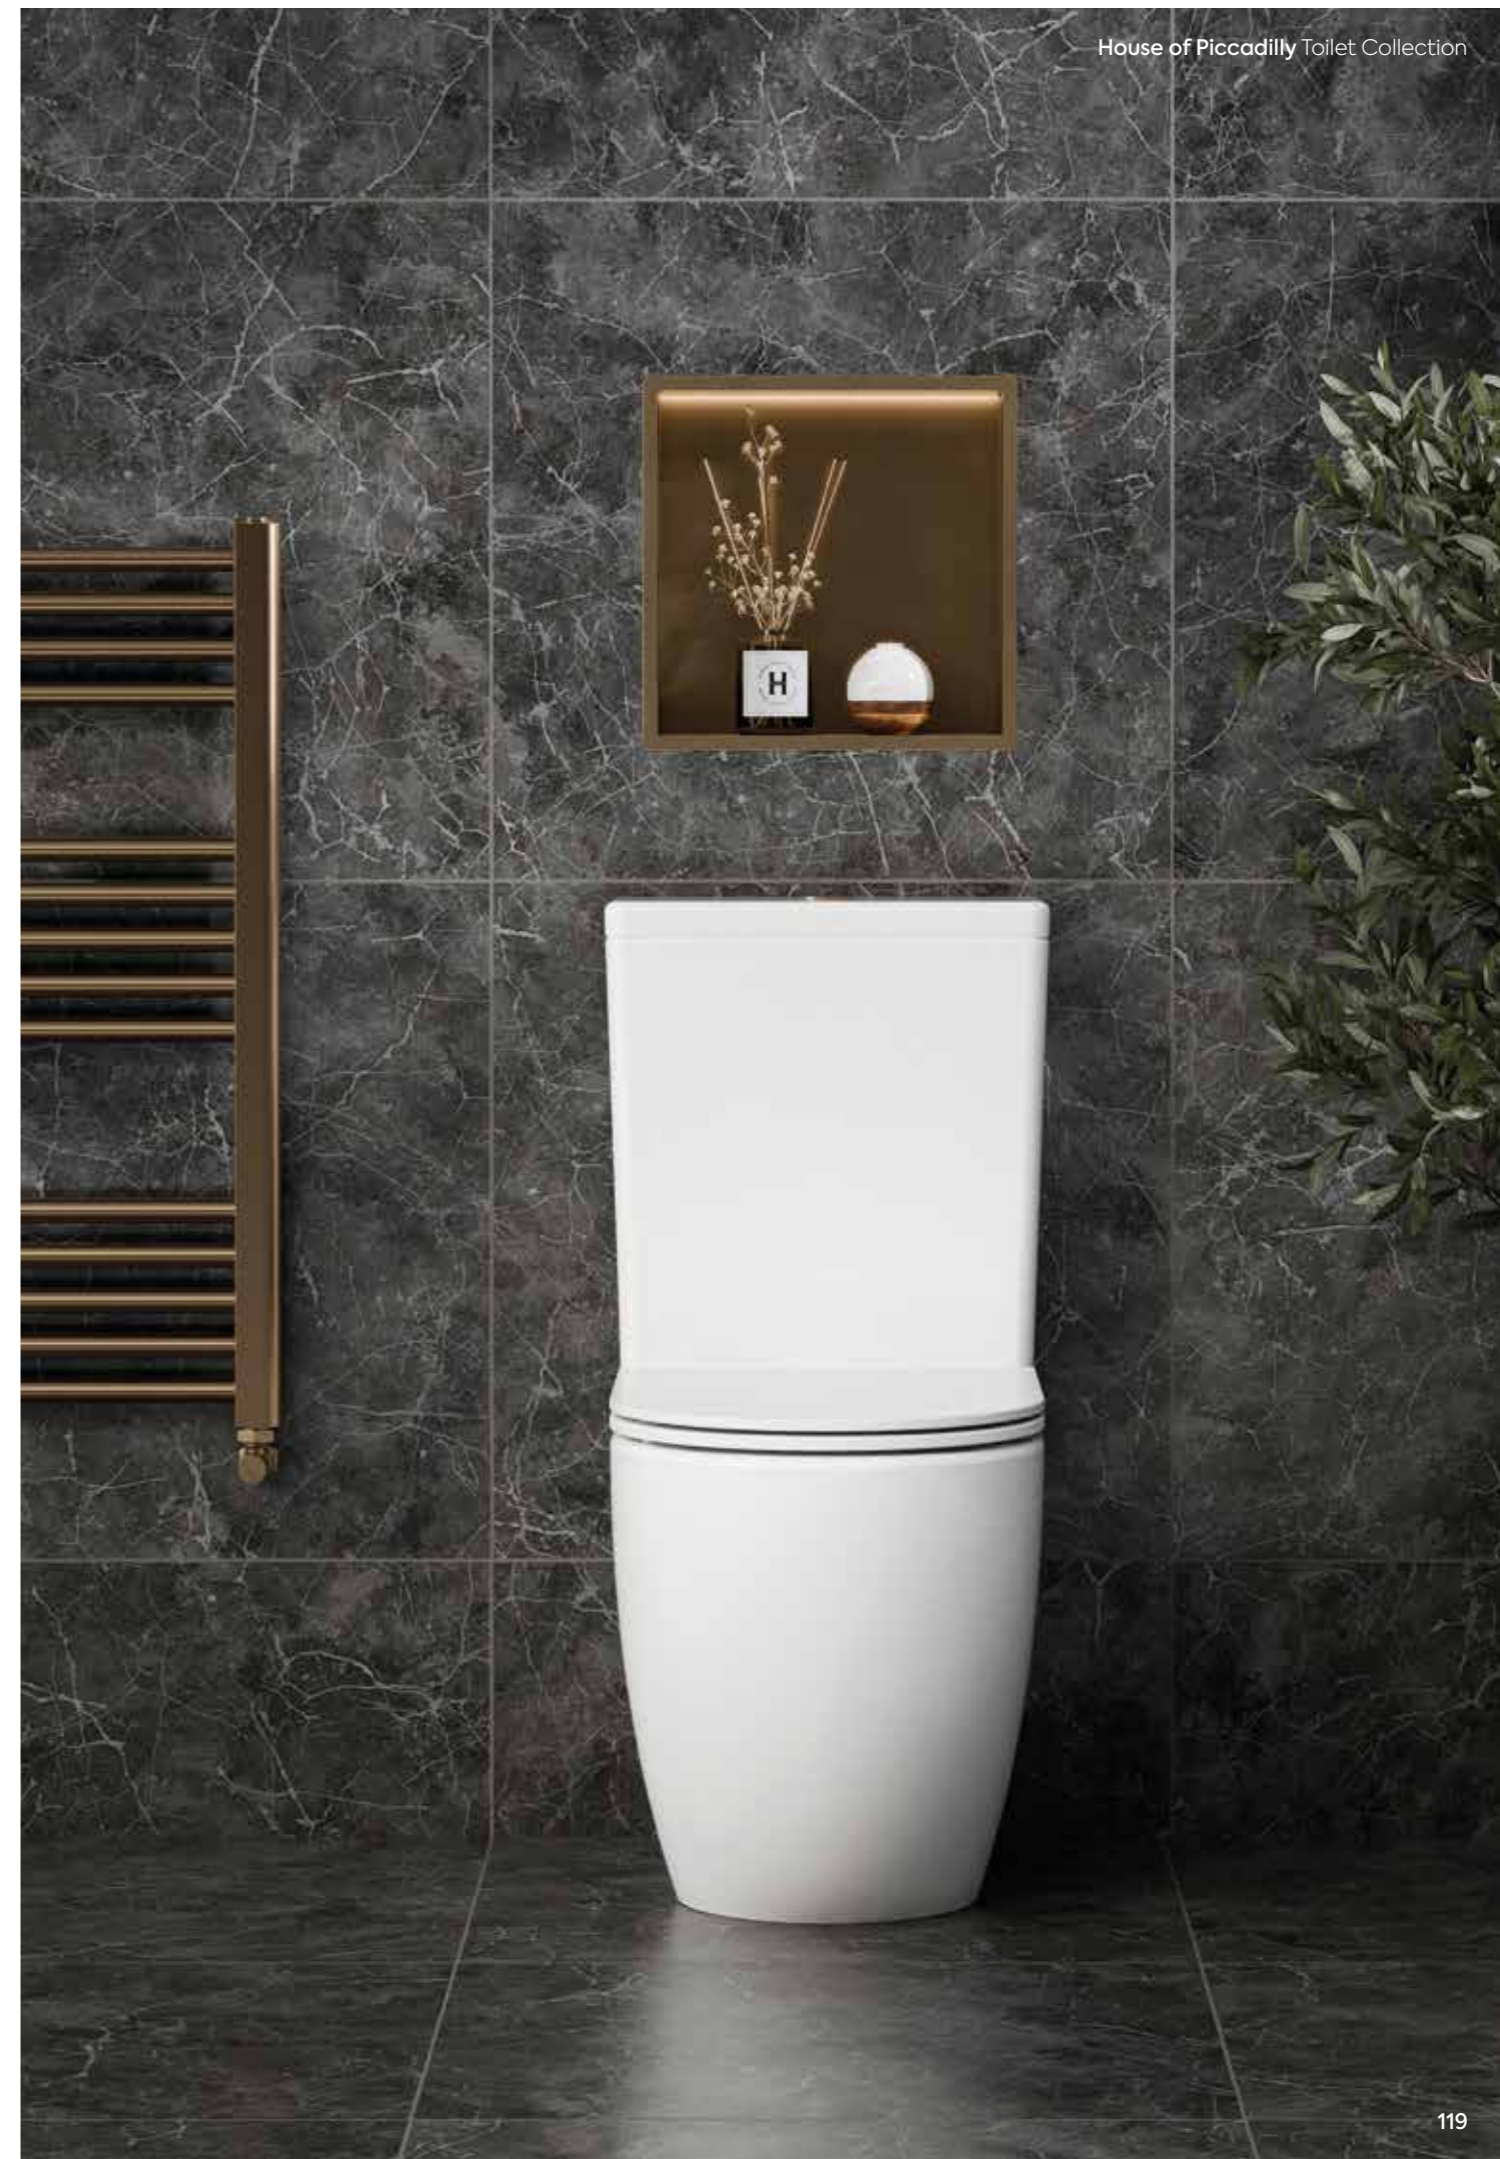

From precision-engineered frames and whisper-quiet cisterns to sculpted  
ceramics and stainless-steel flush plates, our toilet collection is designed to  
perform beautifully and look remarkable doing it.

This is refinement beneath the surface – form meeting flawless function.

Every curve, every mechanism, every polished edge working  
together in quiet harmony.

Because true luxury isn't just seen – it's felt, heard, and  
experienced with every flush.

Ready to discover the art of the unseen? Then let's begin.

# Frames, Cisterns and Flush Plates

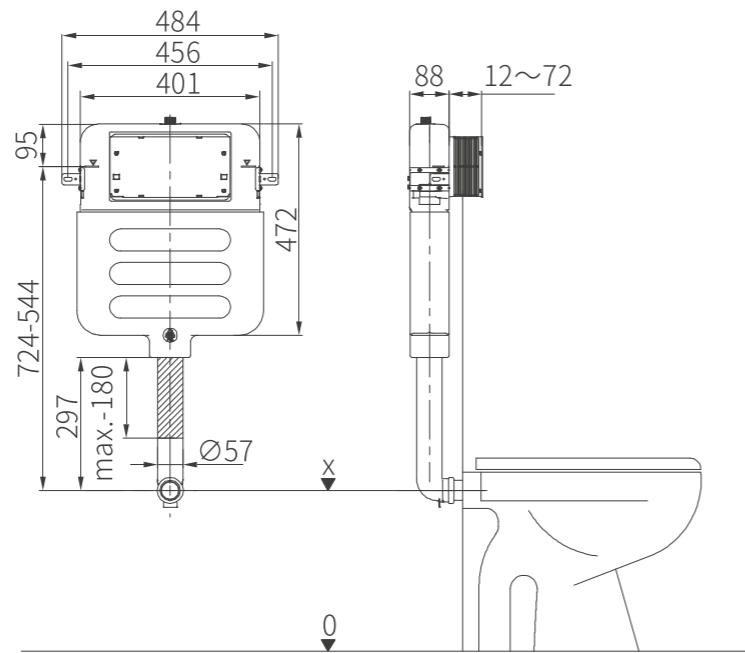

Who thought flushing could feel this good? Our frames and cisterns provide robust reliability, while our sleek flush plates bring a touch of refined luxury to your bathroom. Who says function can't be fabulous?

## Key Features

- Easy Installation with Fixing Kits Included
- Compatible with House of Piccadilly Flush Plates
  - Robust & sturdy support up-to 400kg
  - Insulated tank to prevent condensation
  - Tool free maintenance for easy up-keep
  - Conveniently Integrated isolation valve
    - Top and rear water feeds options
    - WRAS Approved Fill Valve

Adjustment from 1090-1200mm

# Flush Plates

We believe the smallest gestures should still make a statement.

Our flush plates are where tactile design meets quiet innovation – precision-engineered pieces available in both high-grade ABS and solid stainless-steel.

Each finish tells its own story: the warm glow of PVD gold, the cool depth of gunmetal, the purity of brushed steel. Every surface is refined to perfection, ensuring they stay as flawless as the day they were installed.

## Key Features

- PVD coating on coloured flush plates for a durable finish
  - Mechanical flushing mechanism
  - Colour matching to all collections

# Toilets

Introducing our brand new range of toilets featuring an innovative flushing system. Built to offer exceptional performance and cutting edge technology.

We've combined our two most advanced innovations, CycloClean and PureShield Glaze, to deliver the ultimate in toilet hygiene and performance. CycloClean's precision-engineered 360° flush ensures every area of the bowl is reached with powerful yet water-efficient flush, while PureShield's antibacterial glaze creates a protective surface that resists stains and bacteria.

Working in perfect harmony, the dynamic flush actively cleans the bowl while the glaze prevents residue from taking hold, keeping your toilet fresher for longer with minimal effort.

## Key Features

- Brand new CycloClean 360° flushing technology for optimum cleaning
- Advanced hygienic glaze repels dirt and bacteria for a cleaner, fresher finish
- Powerful flush using minimal water for eco-conscious performance

### Advanced Hygiene

Anti-bacterial, hygienic in the dirtiest place.

### Low-Maintenance

Less cleaning with soft-close, quick-release seat & PureShield ceramic easy clean glaze.

### Powerful Performance

CycloClean flush gives full-bowl wash, quiet operation, and discreet outlet.

### High-End Design

Sleek, stylish aesthetics, flush button sits flush with anti-fingerprint technology that matches all our finishes.

### Assured Protection

7-layer packaging for a safer delivery to you and your customer.

## CycloClean™

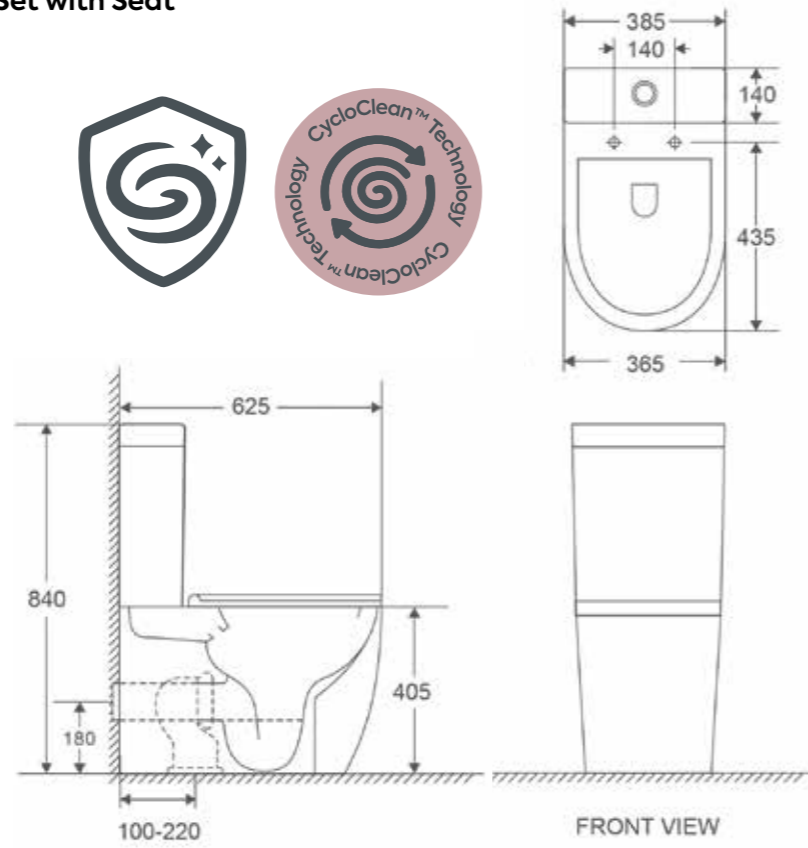

- A precision-engineered CycloClean flush that delivers a quieter, more powerful performance.
- Full 360° flow for a complete bowl clean with every flush.
- Discreetly integrated flushing outlet for a refined design finish.
- Advanced water efficiency, using less water without compromising on performance.
- Innovative PureShield ceramic glaze working in harmony with CycloClean for superior hygiene.
- Engineered for long-lasting reliability with fewer moving parts.

## PureShield Glaze

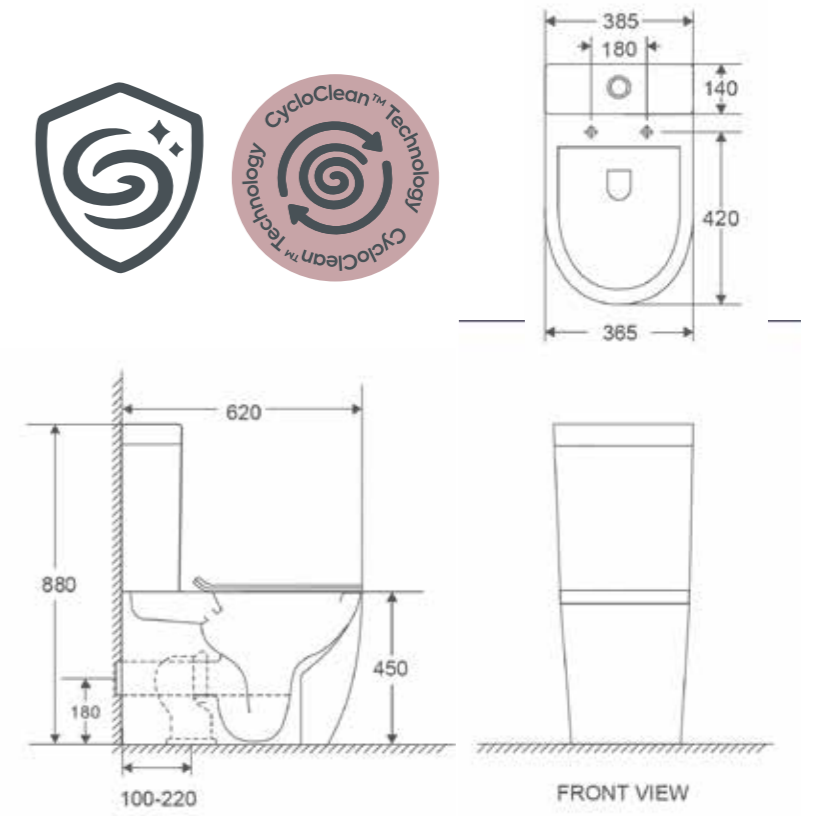

- Creates a smooth, protective layer over the ceramic to prevent dirt and waste from clinging.
- Prevents the growth of bacteria on the toilet surface.
- Reduces staining and discolouration for a long-lasting clean finish.
- Makes everyday cleaning quicker and easier with less scrubbing required.
- Improves hygiene by keeping the surface fresher between cleans.
- Resistant to harsh chemicals, ensuring durability over time.
- Maintains a glossy, polished appearance for a premium look.
- Works in harmony with CycloClean flushing for maximum cleanliness.

# The Bath and Basin Collection

Bath tubs that draw you in. From the depths of design and decadence, we present the House of Piccadilly bath collection. When it comes to the focal point of your bathroom, fortune favours the brave.

Dip your toe into the grandioso, because when you slip into a House of Piccadilly bath tub you are transported to another time and place; feeling every bit as magnificent as your stately statement piece looks.

Dramatic as it sounds, a basin can make or break a bathroom. We lean towards the dramatic at House of Piccadilly, and basins are no exception. We put our basins on a pedestal for good reason (even if they are countertop).

Sumptuously curved or modestly shallow, every contour just makes sense. Choose one to make a big impact in your smallest room or double down on the decadence with two side by side. Either way, brushing your teeth has never been so opulent.

## Be Bold

With our bespoke bath recolouring service.

Choose from an exquisite palette inspired by the rich tones of Farrow & Ball and Little Greene, from soft neutrals to daring brights. Whether you're creating calm or making an impact, your bath can now reflect your personal style and the mood of your home.

Greene  
— PAINT & PAPER —

# Stoneware

## AquaStone™ Collection

Our AquaStone™ baths are designed for pure relaxation and refined living. Created for those who appreciate quiet luxury, each piece is designed for both visual impact and everyday comfort.

Expertly formed from our signature AquaStone™ material, every design is engineered to deliver a beautifully smooth finish, exceptional strength, and timeless style.

Naturally tactile and resilient to daily wear, AquaStone™ stands the test of time.

4-GRANTLEY-WH

# Radiator Collection

You could replace your rail. Fit a new radiator. Swap out that squeaking valve.

Or, you could make every element of your home remarkable with House of Piccadilly.

Purveyors of the curious, the luxurious and sometimes the delightfully naughty, we're here for those who like to cause a bit of a stir. Those who yearn for a clandestine retreat. Those who delight in having their followers clamouring for more.

House of Piccadilly is about expressing yourself, your sense of style and what your home means to you. Whatever your look – wild, refined, cultured or pure, our expertly curated radiator and accessory collections are here to elevate your spaces. To excite the imagination.

And to make a statement.

Ready to uncover the secrets behind the most covetable rooms? Then let's begin.

Spurrier

# Modern

## Heated Towel Rails

Whether your style is effortlessly minimalist or thoroughly outrageous, there's no place for a frumpy radiator in your home. Contemporary, luxurious and efficient, a House of Piccadilly radiator or towel rail is all about making a statement.

# Traditional

## Towel Rail Radiators

Decadently sumptuous bath sheets won't be satisfied with just any old heated towel rail. They demand space to warm their thick fibres, elegance to show off their generous folds, and a choice of finishes to stand out beautifully in your bathroom. Enter the Traditional collection from House of Piccadilly.

Walter

Darcey

Ridgeway

Albert

### Traditional: Towel Rail Radiators

Same towel rail radiator, different finish. The collection is available in a choice of treatments, so you can make your home spectacularly yours.

# Lendal

House of Piccadilly's aluminium radiator collection doesn't shy away from making a statement. These pieces were not designed to blend into the background. From the tall statuesque supermodel-sized styles to the wall-runner radiators that clinch and cinch across inches of the wall, these radiators should never be an afterthought.

The properties of aluminium make it perfectly malleable to make beautiful metallic works of wall art; to incite fascination, influence imagination, inspire conversation – and we're hanging on every word.

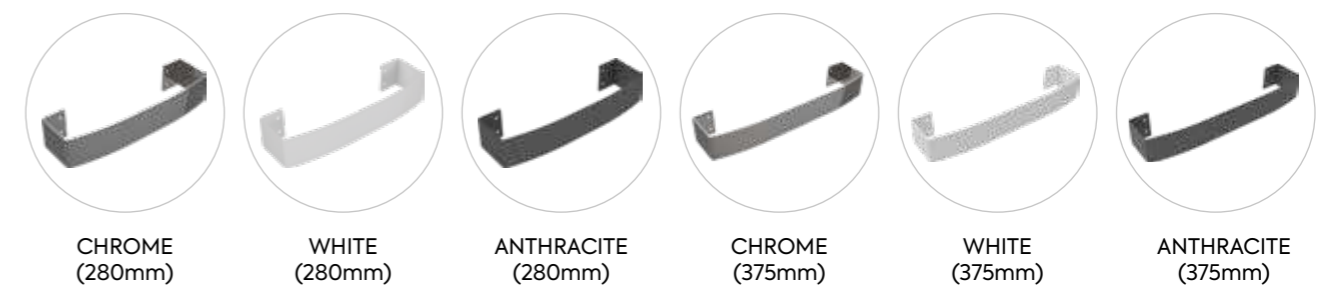

## Lendal: Aluminium Radiators

Go all in for aluminium and get maximum impact from the sleekest, slickest heating solution.
